

Arizona Autism United

5025 E Washington St

Suite 212

Phoenix, AZ 85034

Services Available to Schools

1. *Peer Sensitivity Training*

A comprehensive training package for teachers! *Peer Sensitivity Training* is geared toward typically developing classmates of children with autism and other disabilities, to help them understand the challenges associated with autism and how to be a good friend. It includes teacher training, classroom consultations, materials kits for various age groups, and curriculum integration tools.

2. *Staff In-Service Presentations*

We specialize in providing training classes on applied behavior analysis (ABA), led by our team of licensed Behavior Analysts. We have a variety of presentations available, ranging from 2 to 4 hours in length. Our presentations have been praised for their creative use of interactive breakout activities, visually dynamic slides, video demonstrations, and a workshop-based approach to learning. Certificates for professional development hours are provided. Available topics include:

- Fundamental Concepts in ABA
- How to Plan a Behavioral Intervention
- Effective Use of Discrete Trial Teaching

3. *Behavioral Assessment and Intervention Strategies (Training or Consulting)*

Our team of licensed Behavior Analysts is available to conduct group trainings with teachers and instructional assistants. These trainings go beyond a single presentation and include multiple consultations with each teacher to develop and implement successful behavioral intervention plans with their students. Additionally, we are available to provide consulting on individual cases to assess and improve challenging behaviors in the classroom.
